BARGAINS

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

IS THIS YOUR FIRST AUCTION CATALOG?

26th EDITION (1973) GUIDE BOOK, PAPER MONEY 7th EDITION,
"TRENDS" AND OTHER AUCTION RECORDS
USED IN CATALOGING

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of various records and publications which reflect the actual and not theoretical values. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, CURRENCY, ETC. ARE ESTIMATED AT CATALOG).** In the final analysis, you the collector, are the one who sets the price.

BIDS ARE RECORDED AS FOLLOWS: Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.50. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth, or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even tho auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them, as well as any compliments.

ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED. No, you won't receive a nasty letter for returning a coin — instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins for each sale. Whenever this happens we want it called to our attention to help prevent future errors.

Any lots may be inspected prior to the sale. Collector is liable until received by us. Collector to pay postage and insurance both ways.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

Please allow up to two weeks for receipt of coins; unsuccessful bidder will be notified.

OVER THE YEARS

Commentaries based upon cataloging 300 sales, 45 years as collectors and 40 years as professional numismatists.

The present market can perhaps best be described as "Explosive." Record prices set at auction for rarities and top-grade specimens seem to last only long enough until another specimen is offered, when a new record is set. The true criterion of the market can best be evaluated by knowing the amount of bidders on each item and how much they are willing to bid for it. During the past year the amount of bidders for rarities and top-grade specimens have increased substantially together with the specific price they are willing to bid. In addition, the number of lots being awarded to dealers has increased. Thus the informed collector and dealer, recognizing the strong demand and dwindling supply, has constantly increased their bids to the amount necessary to obtain the coin or note.

Since several months must elapse between the cataloging of a sale and the time it actually takes place, it is inevitable in this rapidly rising market that a number will realize more than our estimates. We do not like this situation, but it exists. Informed collectors and dealers, realizing this, have increasingly taken advantage of the provision to increase their bids (see bottom of bid sheet), if necessary, to obtain the lots particularly wanted. The increase may be limited to specific lots or apply to all the bids, whichever the bidder may instruct us.

The main difference between the bidder of a decade ago and the present bidder is that he is better informed.

Recollections of our earlier sales occur rather frequently when we read, "Do You Remember When" page in the Numismatic Scrapbook wherein under "Thirty Years Ago" they refer to various items in our sales and what they then brought.

We were sad to see that only nine of our colleagues survived to be included in the publicity used in the Silver Anniversary Guidebook published in 1971. We recall with pleasure the many visits we had with Dick Yeoman, not only at the various conventions but also in Des Moines prior to the inception of the Guidebook and since. We have been happy to aid not only in the annual changes in prices, text and addition of new varieties, in the Guidebook but also with various other references published by the Whitman Publishing Co.

COMPLETE SET \$3 THREE DOLLAR GOLD PIECES

1. **1854 THROUGH 1889, COMPLETE SET MOUNTED IN PLASTIC HOLDER.** Condition is as follows: 1854, 56, 57, 58, 59, 61, 62, 63, 64, 65, 66, 67, 68, 69, 71, 72, 74, 75, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 88, 89 **Uncirculated or very close to it (many Prooflike).** Some of these are **COMPLETELY PROOFLIKE** (several may actually be the "Proof" for which they were acquired). 1854-D-O, 55-P-S, 56-S (Large & small s varieties), 57-S, 60-P-S, 70, 73 Closed 3, 76, 87 are mainly Extremely Fine to Near Uncirculated with only a very few being closer to very fine. The 1875 is a gold plated pattern (actually rarer than the normal gold variety but is not as popular — hence brings less than the \$25,000.00 realized for the Miles specimen 5 years ago in 1968).

A LOVELY SET OF 43 COINS which would be difficult to assemble today! The present "market" value for this rapidly rising set is between \$32,500 and \$35,000.00. By the time this sale takes place, its value could be closer to \$40,000.00. **In the present active market for rare and choice gold coins, we cannot think of a better investment.** We are reminded of B. Max Mehl's favorite saying, "The true bargain is the opportunity to acquire the item". What good is the theoretical "catalog value" if the coin is not available? **WHEN WAS THE LAST TIME AN OPPORTUNITY OCCURED TO ACQUIRE A SET OF THE RARE AND POPULAR \$3 GOLD?**

ADDITIONAL INDIVIDUAL \$3 THREE DOLLAR GOLD PIECES

The total struck for all the years issued 1854-1889 is far less than a single year on some of the \$1, \$2½, \$5, \$10 or \$20! We cannot help but feel that the persistent rise in value over the years will continue in the future.

2. 1854 A truly remarkable specimen in an old B. Max Mehl (Fort Worth, Texas) envelope on which "PROOF" is written. This breath-taking example has the word "Dollars" in small letters — **THE ONLY DATE OF THIS TYPE** — and the demand for this "One year only type" is exceedingly strong for top-grade specimens. The two years old Scott catalog states, Proofs "**High R7**" (**Only 4-6 Known**) including those impounded in the Smithsonian and Eliasberg collections. In this era where "extraordinary coins bring extraordinary prices" we would not be surprised to see this specimen bring over 5,000.00
3. 1855 New Type with "**DOLLARS**" much bigger. Acquired several years ago where it was described as "**PROOF SURFACE VERY RARE.**" It is indeed a lovely specimen which could now exceed 1,000.00
4. 1858 Near Uncirculated. **RARE.** "Market" for unc. now over \$1,500; this worth proportionately.
5. 1859 **PROOFLIKE** with lovely patina. Acquired some years ago as a full Proof but we can not quite agree. **RARE.** "Market" now over 1,000.00
6. 1860 Brilliant Uncirculated. **CHOICE!** Far superior to most specimens we have encountered. In this excellent condition, this date is somewhat scarcer than even its low mintage would indicate! Easily worth over 1,000.00
7. 1863 **BRILLIANT PROOF GEM! RAISED BORDERS WITH COMPLETE WIRE EDGE BOTH SIDES! AS PERFECT AS THE DAY STRUCK!** When have you seen a comparable specimen offered? The Wolfson sale (Stack's 1962) had a proof specimen wherein it was stated, "**VERY RARE. VERY FEW KNOWN TO EXIST AS PROOFS: CERTAINLY NOT MORE THAN EIGHT TO TEN PIECES.**" A number of years later, Breen in his booklet, "Major varieties of the United States Three Dollar Gold Pieces", stated, "**The proofs are much rarer than are those of later years in the 1860's, LESS THAN EIGHT BEING LOCATED . . . THIS IS A VERY RARE DATE, AND GROSSLY UNDERVALUED IN ALL CONDITIONS!**" We note a price of \$3,000 on the envelope along with the date of 1966. Now, seven years later, this "Grossly Undervalued" piece should realize over \$5,000, possibly closer to 6,000.00

SET PROOF HALF DIMES

234.	1855-1873 COMPLETE SET OF HALF DIMES IN PROOF MOUNTED IN PLASTIC (includes 1860 Transitional with PROOFLIKE Surface, but no 1859 Transitional), BRILLIANT, GOLDEN BLuish, ATTRACTIVE PATINA. Catalogs \$4,535 but "market" now closer to	6,000.00
------	--	----------

We maintain a large stock of U.S. coins & currency not contained in our Mail Sales. Use the back of the Bid Sheet for your want list.

1792 HALF DISME

235. 1792 HALF DISME, **VIRTUALLY UNCIRCULATED WITH PLEASING PATINA**; the obverse appears to be Uncirculated with only the faintest rubbing when closely examined with a glass. **IT IS REMARKABLY SHARP STRUCK AND WELL-CENTERED WITH EDGE DENTICLES QUITE SHARP!** The reverse is just a shade off center with slight friction evident on eagle's breast. If this specimen is not actually "CONDITION CENSUS" it surely is very close to it! Breen in his monograph, "United States Half Dimes," states **"OF THE MOST EXTREME RARITY IN MINT STATE. PROBABLY THE MOST DESIRABLE AMERICAN SMALL SILVER COIN."** Easily worth over \$4,000; perhaps closer to 5,000.00

HALF DIMES STARTING 1794

236. 1794 Flowing Hair, Near Uncirculated. Sharper struck than most. **RARE AND VERY POPULAR AS A "TYPE"**. Catalogs much too low Unc. at only 1,725.00
237. 1795 Bluish Golden Uncirculated, **SHARPER STRUCK THAN MOST SEEN**, slight rub. **RARE**. Well worth 1,250.00

1796 OVER 5? HALF DIME

238. Acquired from a sale five years ago wherein described as, "1796 OVER 5, trace of right top of 6, very good bust (spot on cheek) but Very Fine stars, date and Liberty; Very Fine reverse. **VERY RARE!** Seldom offered. One of the most undervalued of the entire series!" Upon closer examination, however, we do not feel this is an overdate as described but instead an interesting variety of the regular issue. As such it is probably worth \$300 to 350.00
239. 1796 **LIKERTY** Variety, Struck from slightly dished dies resulting in a **Virtually UNCIRCULATED** obverse with only slight friction and the reverse being fine in the center and **Extremely Fine** at the edges. The owner paid \$1,800.00 over a decade ago; present value?
240. 1797 **16 STARS, EXTREMELY SHARP, NEAR UNCIRCULATED**, typical strike with eagle not fully defined (as on all specimens of this variety we have seen), some porosity of planchet. Scott states, **"VERY RARE IN UNC."** and values it in Unc. at 1,500.00
241. 1800 **LARGE HERALDIC EAGLE**, about Very Fine (uneven wear). Popular. Catalogs low at only 415.00
242. 1800 **LIBEKTY** Variety, **GLITTERING SLIGHTLY GOLDEN UNCIRCULATED WITH SOME PROOFLIKE SURFACE BOTH SIDES, SHARP STRUCK!** Variety with bulged die above top left corner of shield. Popular for "type"! Easily worth \$1,500.00; perhaps now closer to 2,000.00

1801 HALF DIME UNC.

243. 1801 **Small Narrow 8, SHIMMERING UNCIRCULATED WITH BLUE PROOFLIKE LUSTER!** Apparent friction due to worn dies; faint rub visible when closely examined with glass. Breen states "probably the **MOST DIFFICULT DATE IN THE SERIES, AND CERTAINLY THE MOST UNDERRATED.**" He later states, **"ONLY TWO SEEN ABOVE VF"**. Scott Catalog further states, **"UNKNOWN IN UNC."! IS THIS THEN THE "FINEST KNOWN"?** If so, we can expect bids exceeding 3,000.00
244. 1803 **Small 3, VIRTUALLY UNCIRCULATED**, only barest friction; careful examination reveals tiny clever repair. Breen states, **"BORDERLINE R-7 (11-12 Known) . . . IT IS CERTAINLY RARER THAN ANY OF THE THREE DATES NAMED (1792, 1802, 1805)."** Scott Catalog further substantiates this and adds, **"EXCESSIVELY RARE IN UNC."** and does not list it in better than V.F. (at \$675). Since V.F. is valued over 2½ times Fine, **Extremely Fine** should list about \$1,700. This **CHOICE** specimen worth proportionately.

RECHECK YOUR BIDS---AVOID ERRORS

245. **1805 VERY CLOSE TO THE "UNCIRCULATED"** for which obtained, Glittering Golden Patina with only barest traces of friction on highest points; usual shallow striking at point of bust (typical of genuine specimens), but **STRONGER STRIKE THAN ON MOST SEEN!** Breen states, **"REGARDED AS SECOND RAREST REGULAR ISSUE HALF-DIME . . . ABOUT AS RARE AS THE 1799/8 CENT."** Scott Catalog states **"UNIQUE IN STRICTLY UNC., EXCESSIVELY RARE IN E.F.; ONLY ABOUT HALF-A-DOZEN EXIST IN VERY FINE OR BETTER."** This specimen must then be **"CONDITION CENSUS"**! Not valued in either Scott or Guidebook in over V.F. due to its "Excessive Rarity." Certainly well worth 2,250.00

1824 WASHINGTON-LAFAYETTE "HALF DIME"

246. **"GEORGE WASHINGTON"** around bust, reverse **"1824 GENERAL LAFAYETTE"** around bust, silver. Struck at the mint from dies prepared to counterstamp the coins in circulation to commemorate Lafayette's visit to the United States in 1824. **THE FIRST U.S. COMMEMORATIVE COIN!** A choice Virtually Uncirculated specimen, with only barest friction in custom made holder. "An Historical Rarity" well worth owner's valuation of 850.00

CAPPED BUST HALF DIMES STARTING 1829

COMPLETE SET PROOF DIMES 1858-1891

333. LIBERTY SEATED DIMES 1858-1891 COMPLETE IN **PROOF** (no 1859 transitional) BRILLIANT, GOLDEN, BLUISH TONING, Mounted in attractive plastic holder. Catalogs \$4,357.50 but "Market" now close to 6,000.00

INDIVIDUAL EARLY DIMES

334. 1796 15 STARS, SMALL EAGLE, SPLENDID BLUE AND PURPLE PROOF SURFACE! SHARP STRUCK WITH WIRE EDGE! INTERESTING DIE BREAK IN LEFT FIELD, FOUR BERRIES VARIETY. A REMARKABLE SPECIMEN OF THIS POPULAR "TYPE" COIN. A similar specimen sold seven years ago in a New York sale at \$5,600, surely this spectacular coin now worth over 7,500.00

335. 1797 16 STARS (states), Near Uncirculated, minute abrasions reverse. Scott Catalog states, "EXTREMELY RARE IN UNC." This one should realize close to 1,500.00

336. 1797 STARS REDUCED TO 13 (it was realized how impractical it would be to add a star for each new state) Virtually UNCIRCULATED, only barest friction. Eagle's head not fully struck up as is characteristic of this die. Scott Catalog states, "EXCESSIVELY RARE IN UNC." and values it 2½ years ago in Unc. at \$2,500; present value unc. at least 3,500.00

337. 1798 OVER 97, 13 STARS REVERSE, BLUISH GOLDEN UNCIRCULATED, usual soft strike in center which seems characteristic of these early dimes. NOT PRICED IN GUIDEBOOK ABOVE VERY FINE. NEITHER IN SCOTT CATALOG WHEREIN IT STATES, "R7 (7-9 KNOWN). EXCESSIVELY RARE (2-3 KNOWN) IN UNC., E.F." It is therefore quite probable that the statement made by the leading New York dealer who sold this specimen in 1962 is undisputed: "IT IS DOUBTFUL IF AN EQUAL OR FINER SPECIMEN EXISTS OF THIS GREAT RARITY! Price \$7,500.00". In our forty years as professionals we have also not seen an equal! In the last decade, spectacular rarities such as this have more than doubled, therefore, this "FINEST KNOWN" should certainly now exceed 15,000.00

338. 1798 OVER 97. "Transitional" coin with 16 Stars reverse and 13 stars obverse, Bluish Golden Uncirculated, pinpoint nick, typical soft striking on reverse shield. Scott Cat. states, "VERY RARE IN UNC." and catalogs in 2½ years old edition at \$1,150, and should now exceed 1,500.00

339. 1798. Large 8, BRILLIANT UNCIRCULATED WITH ORIGINAL "MINT LUSTER", SHARP STRUCK! From a sale over 10 years ago wherein described as "ONE OF FOUR SPECIMENS KNOWN IN MINT STATE" Later this was sold by another New York dealer and described as the "FINEST KNOWN" and sold for \$1,200. Six years ago it again appeared on the market valued at \$2,000.00. This extreme rarity (FINEST KNOWN?), should now realize over \$3,500, perhaps close to 5,000.00

340. 1798 Small 8, NEAR UNCIRCULATED, SHARP STRUCK! Listed in Scott Catalog as, "HIGH R6 (13-15 KNOWN). EXCESSIVELY RARE IN UNC." Furthermore, neither Scott nor the Guide Book attempt to value this rarity above V.F.! Acquired from Empire Coin Co. (New York) from their 1962 price list wherein it was stated "The rarity and desirability of this dime is given by the fact that it is among the very few unpriced U.S. silver coins in the reference (Guide Book). Some indication of value is given for other rarities such as the 1894-S dime, 1876-CC 20c, 1804 dollar, etc. This dime \$5,750.00" AN EXTRAORDINARY OPPORTUNITY WHICH MAY NOT OCCUR FOR ANOTHER DECADE!! Present value surely over 7,500.00

341. 1800 Sharpness of Extremely Fine but close examination reveals some "smoothing away" of roughness of the surface. E.F. worth about 550.00
342. 1801 Extremely Fine. **VERY RARE. Seldom Offered above fine.** 725.00
343. 1802 Very Good. Scarce! Catalogs low at only 225.00

344. 1803 UNCIRCULATED, typical soft strike center and at right stars; Bluish Golden toning, barest rub on collar. Scott Catalog states, "**EXCESSIVELY RARE IN UNC., E.F.**" This would then make this specimen among the **FINEST KNOWN!** Scott refuses to value this great rarity in Unc. Easily worth 1,750.00

345. 1804 13 STARS REVERSE, From a sale 4½ years ago wherein it was stated, "**VIRTUALLY UNCIRCULATED, ONLY BAREST FRICTION. AN OUTSTANDING RARITY MISSING IN THE MERKIN SALE (April, 1966), WOLFSON SALE (May, 1963), 'WORLD'S GREATEST COLLECTION OF U.S. SILVER COINS, ETC!'**" Rarer than the 1804 14 stars reverse. IN ADDITION TO RARITY, THIS CONDITION IS 'FANTASTIC'. The owner states he refused \$2,500 for this remarkable rarity five years ago. When pressed for an idea of what he valued it at, his answer was "It is at least as rare as the 1894-S (recently sold for about \$50,000)"! What it might realize now, is problematical-possibly \$5,000.00" It then realized \$3,850.00. Since then, the comprehensive Scott Catalog (published 2½ years ago) stated, "**UNKNOWN IN UNC., EXCESSIVELY RARE ABOVE V.F.**" This could very well be the "**FINEST KNOWN**" Recognizing this, and what it brought 4½ years ago, this GREAT RARITY could realize over 6,000.00

346. 1804 14 Stars Reverse, Struck from slightly dished dies resulting in the obverse being basically Very Fine With a nick and the Reverse fine with a nick. **VERY RARE! ONLY ABOUT A DOZEN SAID TO BE KNOWN!** Catalogs Fine at \$350 and V.F. at \$585; this one probably worth around 475.00
347. 1805, 4 Berries on Branch; Virtually Uncirculated, only barest friction, some blue patina. Popular "Type". Scott Catalog States, "Extremely Rare (4-6 Known) in Unc. Very Rare in E.F." Valued in an auction several years ago at \$550; should now be worth 650.00

348. 1805 5 Berries, **GLITTERING GOLDEN SHARP STRUCK UNCIRCULATED** Scott Cat. states, "**EXTREMELY RARE (4-6 KNOWN) IN UNC.**" Acquired from a 1966 sale where it was valued at \$1500. Surely this "**CONDITION CENSUS**" specimen should now, 7 years later, bring close to 2,500.00

349. 1807 Virtually **UNCIRCULATED** with much luster, usual strike from clashed dies. **Far superior to most we have seen.** Catalogs a very low unc. at only 700.00
350. 1807 Good bust and eagle with sharp fine date, balance of coin fair. Catalogs good 90.00

CAPPED BUST DIMES

351. 1809 Near Uncirculated. Scott states, "**EXCESSIVELY RARE IN UNC.**" Although not Unc., this could well be "**CONDITION CENSUS**". Not valued by Scott in Unc., V.F. priced at \$335 (double Fine price). This choice specimen, therefore, should be worth around 700.00
352. 1809 Basically Very Good but some abrasions. Catalogs in only Good by Scott at 105.00
353. 1811 OVER 9, Bluish Golden Uncirculated, barest trace of rubbing. Scott cat. states, "**VERY RARE IN UNC. (7-9 KNOWN)**" Probably a "**CONDITION CENSUS**" specimen, "Market" for unc. now (if one could be found) around 1,000.00

CAPPED BUST DIMES (Cont.)

354. 1814 **SMALL DATE**, **Bluish Golden Uncirculated**, typical strike from worn dies. Only Variety of the type. Scott Catalog states, "**EXCESSIVELY RARE (2-3 KNOWN) IN UNC.**" What's more, the Scott catalog states that this date is, "**TRADITIONALLY MUCH UNDERRATED IN ALL GRADES.**" Dealers are offering to pay \$750 for "common" dates of this type (1820, 25, 27) unc., surely this rarity worth substantially over 1,000.00
355. 1814 **LARGE DATE**, period after 10c., variety with "**STATESOFAMERICA**" one word. From a sale over 6 years ago wherein it was described as, "Acquired as 'about Uncirculated' but careful examination leads us to believe that the flattening of the top hair strands and the claws of the eagle may be due to the striking rather than wear. According to the director of research of the Standard Catalogue of United States Coins, 'a RRR type coin, belongs in the catalog. **ONLY 2 OTHERS KNOWN. BOTH WORN.**' " It was valued then (over a decade ago) at \$500. Surely this great Rarity now worth over 1,500.00
356. 1820, **LARGE O**, "**STATESOFAMERICA**", old-style letters (the above reverse die used). Near Uncirculated with luster, pleasing patina. Scott Catalog states, "**RARELY FOUND WITH OLD-STYLE LETTERS**". The normal type now brings over \$850 unc.; surely this "**RARE STYLE**" worth at least 1,000.00
357. 1820, **LARGE O**, "**STATESOFAMERICA**", new-style letters, **Blunt 1 in 10c**; **Glittering Bluish Golden Uncirculated**, slight evidence of friction (old-time "cabinet friction"). RARE. "Market" for "common" varieties unc. now \$850; surely this rare variety worth more!
358. 1820, **LARGE O**, "**STATESOFAMERICA**", new-style letters, **Sharp Pointed 1 in 10c**; Near Uncirculated. RARE. Worth at least as much as the above variety.
359. 1820, **LARGE O**, Normal Letters, **BLUNDERED LEGEND WITH SEVERAL LETTERS RECUT OVER OTHERS; SHARP STRUCK GEM WITH BLUE PATINA!** Originally acquired from a sale in 1957 where it was stated "**ONLY ONE OTHER SPECIMEN REPORTED**". We have seen another since—over 6 years ago—valued at \$1,000; this remarkable specimen now worth over 2,000.00
360. 1820, **LARGE O**, Normal letters, "**S**" **OVER INVERTED "S" IN STATES**; **Bluish Golden Uncirculated**, typical striking with some hair strands and eagle's claws not fully struck up. RARE. Easily worth over 1,000.00
362. 1820 **Large O**, **Small 10c**, Described from a sale 6 years ago as "**Iridescently toned PROOFLIKE UNC.**, evidently an early strike from dies which had recently made proofs, but also evidently given only one blow from them, as on regular coins for circulation. Devices, though frosty are unevenly struck up (eagle's claws not full)." It was valued then at many times the "Common" varieties. This remarkable specimen now worth over 1,250.00
363. 1820, **SMALL o**, Extremely Fine, typically soft strike. In demand for "type". 100.00
364. 1821 **Small Date** (Twice as rare as the Large Date). **Golden Uncirculated**, Typical strike with some portions not fully struck up. Since the Large Date now brings Unc. \$850, this should be worth over 1,000.00
365. 1821 **Large Date**, **Blunt 1 in 10c** of rare **STATESOFAMERICA** (one word), Near Uncirculated. Unc. worth \$1,000, this worth proportionately.
366. 1821 **Large Date**, **Sharp pointed 1 in 10c**, **MUCH RARER THAN THE USUAL BLUNT 1. BRILLIANT SLIGHTLY GOLDEN UNCIRCULATED GEM!** Easily worth over 1,250.00
367. 1822 Near Uncirculated, blue patina. Scott Cat. states, "**EXTREMELY RARE IN UNC.**" Seldom offered so choice. Unc. now worth at least \$1250; this worth proportionately.

- 368. 1823 OVER 22, Small E's, Near Uncirculated. Scott Cat. states, "Generally underrated, and more than quadruple the rarity of the following (Large E's)" "Market" for Unc. would be at least \$1,000; this worth proportionately.
- 369. 1823 OVER 22, Large E's Near Uncirculated. "Market" for unc. now \$850; this worth proportionately.

2,000.00

- 377. 1829 Large 10C., REVERSE 1828 WITH SAW-TOOTH EDGE, Near Uncirculated, Tiny nick. VERY RARE. Unc. worth about \$600; this worth proportionately.

EXTREMELY RARE \$50 1918 FEDERAL RESERVE BANK NOTE

779.	F831, FEDERAL RESERVE BANK OF ST. LOUIS, 1918, NEW CRISP, SUPERB! PLATE # 1. The subject of a number of articles, it is the only \$50 denomination to be printed (the other 11 banks did not go beyond the \$20). It is popular as a type and has had a higher value in each of the catalogues as they are printed. Friedberg has, "This note is very rare as only 62 pieces are reported outstanding on U.S. Treasury books." A report of the Treasury Department as of January 31, 1970, shows that one of these has since been redeemed. Wm. A. Philpott, Jr., the most knowledgeable authority on this note, has compiled a list of known specimens in all conditions from fine to new. His list contains a total of only 28 known as of early 1970. This includes those impounded in institutions, foundations, and otherwise not available to the present market. The consignor personally valued this particular note quite highly, not only for its rarity and condition but also for having an "8" in its serial number of H768A (in addition to H-8 bank, series 1918, F831, May 18 date). This note is as nice as the one we had several years ago at \$6,000.00. Surely with this added feature of the "8's", this remarkable note should now be worth somewhat more than the other at	6,000.00

1323.	1854 Reengraved date, Variety Glittering Golden Uncirculated. RARE.	450.00
1324.	1855 ARROWS, Acquired as "BRILLIANT SLIGHTLY GOLDEN PROOF". Although it has many of the characteristics of a proof (sharp struck, mirrorlike surface, "straight edges") under close examination we do not believe this to be quite the full proof for which acquired. It is our theory that a special order for "special coins" was filled by taking a regular die (the right claws are not completely full) polishing the die and planchet and then striking this specimen with unusually heavy pressure. While we have occasionally seen similar type specimens sold as "full proofs", we are hesitant to accept it as such. This remarkable specimen appears to have been cleaned some years ago but now has a pleasing light golden patina. Although the owner of this coin paid \$1,000 a number of years ago, it is our belief that a full proof of this date would bring over \$5,000.00. It is conceivable that this popular "type" specimen, properly described, could now realize close to its cost of 1,000.00

1854-S QUARTER-EAGLE — THE RAREST DATE & MINT!

1482. 1854-S Pleasing Sharp Extremely Fine specimen with traces of luster acquired as ABOUT UNCIRCULATED). Since fewer 1854-S's are now known than the "Little Princess 1841", then this could very well lay claim to the title of **"QUEEN OF THE QUARTER-EAGLES"**! Certainly **RARER** than the hair-marked 1841 offered in 1972 at \$29,000.00. Surely this **"CONDITION CENSUS" SPECIMEN OF THE RAREST QUARTER EAGLE WILL NOW SET A RECORD COMMENSURATE WITH ITS RARITY!**

1856-S THROUGH 1879-S QUARTER-EAGLE COMPLETE "S" MINT SET

1483. 1856-S through 1879-S in attractive custom made plastic holder which seem to average **Extremely Fine** to rather close to **Uncirculated**: many with luster. Some actually **Uncirculated** including the rare 1862-S. A choice set GREATLY SUPERIOR TO most individual specimens seen over the years! A rare set which should surely exceed 3,000.00

"MASATHVSETS IN NEW ENGLAND" COINAGE (1652-1682)

1553.	OAK TREE TWOPENCE 1662, Noe 30 variety, very fine, date side well-centered with tree side being typically struck (part of legend not completely showing). Superior to most specimens seen over the years!	600.00
-------	---	--------

1554. **OAK TREE SHILLING 1652**, Noe 5 variety, date side well-centered, tree side better centered than usual with only a tiny portion of legend at bottom not fully visible. Fine (slight wave in planchet resulting in date being very fine and opposite spot on trees side being worn). The "commonest" variety catalog fine at 300.00
1555. **PINE TREE THREEPENCE 1652**. Noe 34 variety, fine or so (slightly dished planchet resulting in uneven wear — some portions closer to very fine with other parts fine or less) hole to right of tree, typical strike with part of legend not completely showing. **RARE**. The "commonest" variety catalogs fine at \$300; this worth proportionately.

1556. **PINE TREE SIXPENCE 1652**, Noe 33 variety, extremely fine with pleasing patina, a choice and sharp specimen. **FAR SUPERIOR CENTERING TO THE USUAL SPECIMEN!** Not only is the date side well-centered but the tree side is almost completely centered with only a tiny portion of the legend at top not completely showing! A glance at the specimens pictured in the Guidebook, Standard Catalogue and other references will easily confirm the rarity of a specimen with this centering. A remarkable specimen easily worth \$1,250.00 to 1,500.00

1557. **PINE TREE SHILLING, Large Planchet 1652**, Noe 8 variety, Virtually **UNCIRCULATED**, only barest friction. Well-Centered **BOTH SIDES!** A lovely specimen of this rarity. Undoubtedly, "**CONDITION-CENSUS**"! As such, worth (depending upon which of the top 6 specimens it is) upwards of 2,500.00

1558. **PINE TREE SHILLING, Large Dies on SMALL PLANCHET 1652**, Noe 14, listed as **SEPARATE "TYPE"** in Scott Catalogue (type 17) which includes 3 varieties (Noe 13, 14, 31) "deliberately struck on small planchets to simulate clipped coins. In all, borderline **RARITY 7**"! It is not priced there! The Standard Catalogus includes this as a separate "type" (Noe. 13, 14, 31) under "**LARGE SIZE PINE TREE SHILLINGS**" with "Ex. Rare" instead of a price (the other "type" Large Size Shillings are priced) and the specimen pictured there is well worn and holed.
The specimen herein offered (Noe. 14) has a fine and bold "1652 XII" with much of the legend and circle of dots not only visible, but fairly sharp; the tree is good to very good with some of the dots and legend around it visible. These always are found very worn and as stated above, "deliberately struck on small planchets (therefore not all of the legends could possibly show) to simulate clipped coins." According to the records accompanying this collection, the owner paid \$2,500 for this rarity several years ago. It could now realize \$4,000 to 5,000.00

1559. **PINE TREE SHILLING, small planchet 1652**, Noe 16 variety, extremely fine and sharp with some luster, well-centered! An unusually choice specimen. In this remarkable condition, it should surely bring over 1,000.00
